Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means HMSA. When it refers to “plan” or “our plan,” it means HMSA Medicare Advantage.

This document includes a list of the drugs (formulary) for our plan, which is current as of Dec. 1, 2024. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on Jan. 1, 2025, and from time to time during the year.

What is the HMSA Medicare Advantage Formulary?

A formulary is a list of covered drugs selected by HMSA Medicare Advantage in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. HMSA Medicare Advantage will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at an HMSA Medicare Advantage network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

Can the Formulary (drug list) change?

Most changes in drug coverage happen on Jan. 1, but we may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand-name drug on our Drug List if we are replacing it with a new generic drug

that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand-name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand-name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.

- If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the HMSA Medicare Advantage Formulary?”

- **Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to market to replace a brand-name drug currently on the formulary or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines.

If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug.

- If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an

exception, and you can find information in the section below titled “How do I request an exception to the HMSA Medicare Advantage Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year.

You will not get direct notice this year about changes that do not affect you. However, on Jan. 1 of the next year, such changes may affect you and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of Dec. 1, 2024. To get updated information about the drugs covered by HMSA Medicare Advantage, please contact us. Our contact information appears on the front and back cover pages. We will inform members of any formulary changes to this comprehensive formulary through our website.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular.” If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 54. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic

drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

HMSA Medicare Advantage covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** HMSA Medicare Advantage requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from HMSA Medicare Advantage before you fill your prescriptions. If you don’t get approval, HMSA Medicare Advantage may not cover the drug.
- **Quantity Limits:** For certain drugs, HMSA Medicare Advantage limits the amount of the drug that HMSA Medicare Advantage will cover. For example, HMSA Medicare Advantage provides 30 tablets per 30 day supply for simvastatin 80mg. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, HMSA Medicare Advantage requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, HMSA Medicare Advantage may not cover Drug B unless you try Drug A first. If Drug A does not work for you, HMSA Medicare Advantage will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website.

We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask HMSA Medicare Advantage to make an exception to these restrictions or limits or for a list of other similar drugs that may treat your health condition. See the section, "How do I request an exception to the HMSA Medicare Advantage formulary?" on this page for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Relations and ask if your drug is covered. If you learn that HMSA Medicare Advantage does not cover your drug, you have two options:

- You can ask Customer Relations for a list of similar drugs that are covered by HMSA Medicare Advantage. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by HMSA Medicare Advantage.
- You can ask HMSA Medicare Advantage to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the HMSA Medicare Advantage Formulary?

You can ask HMSA Medicare Advantage to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at lower cost-sharing level, unless the drug is on the specialty tier or is already on the lowest available tier. If approved this would lower the amount you must pay for your drug.

- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, HMSA Medicare Advantage limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, HMSA Medicare Advantage will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering, or utilization restriction exception. **When you request a formulary, tiering, or utilization restriction exception, you should submit a statement from your prescriber or physician supporting your request.**

Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription.

You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (if your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication). After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with a 31-day transition supply consistent with the dispensing increment (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan.

If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

Transition policy

New members in our Plan may be taking drugs that aren't on our formulary or that are subject to certain restrictions, such as prior authorization. Current members may also be affected by changes in our formulary from one year to the next.

Members should talk to their doctors to decide if they should switch to a different drug that we cover or request a formulary exception in order to get coverage for the drug. See the section above, "How do I request an exception to HMSA's Medicare Advantage formulary?" to learn more about how to request an exception.

Please contact Customer Relations if your drug is not on our formulary, is subject to certain restrictions such as prior authorization, and you need to switch to a different drug that we cover or request a formulary exception.

During the period of time members are talking to their doctors to determine a course of action, we may provide a temporary supply of a nonformulary drug if those members need a refill for

the drug during the first 90 days of new membership in our Plan.

If you are a current member affected by a formulary change from one year to the next, we will provide you with the opportunity to request a formulary exception in advance for the following year.

When a member goes to a network pharmacy and we provide a temporary supply of a drug that isn't on our formulary, or that has coverage restrictions or limits (but is otherwise considered a Part D drug), we will cover a 30-day supply (unless the prescription is written for fewer days).

After we cover the temporary 30-day supply, we generally will not pay for these drugs as part of our transition policy again. We will provide you with a written notice after we cover your temporary supply. This notice will explain the steps you can take to request an exception and how to work with your doctor to decide if you should switch to an appropriate drug that we cover.

If a new member is a resident of a long-term care facility (like a nursing home), we will also cover a temporary 31-day transition supply (unless the prescription is written for fewer days). If necessary, we will cover more than one refill of these drugs during the first 90 days a new member is enrolled in our Plan. If the resident has been enrolled in our Plan for more than 90 days and needs a drug that isn't on our formulary or is subject to other restrictions, such as dosage limits, we will cover a temporary 31-day emergency supply of that drug (unless the prescription is for fewer days) while the new member pursues a formulary exception.

Current members are also eligible to receive a transition fill under certain conditions. If a current member enters a long-term care (LTC) facility, or is in an LTC facility and requires an emergency supply of nonformulary drugs, we will cover a temporary 31-day transition supply (unless the prescription is written for fewer days). We will cover more than one refill of these drugs for these members for the first 90 days.

A member may experience a change in their level of care at an inpatient hospital facility or skilled nursing facility which results in noncoverage of drugs previously covered by Medicare

Part D. For current members experiencing a level of care change, we will also cover a temporary 31-day transition supply as outlined above.

Please note that our transition policy applies only to those drugs that are Part D drugs and bought at a network pharmacy. The transition policy can't be used to buy a non-Part D drug or a drug out-of-network, unless you qualify for out-of-network access.

HMSA Medicare Advantage Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by HMSA Medicare Advantage. If you have trouble finding your drug in the list, turn to the Index that begins on page 54.

The first column of the chart lists the drug name. Brand-name drugs are capitalized and generic drugs are listed in lowercase italics.

The information in the requirements/limits column tells you if HMSA Medicare Advantage has any special requirements for coverage of your drug.

Drug tier index:

Tier 1 - Preferred Generic

Tier 2 - Generic

Tier 3 - Preferred Brand

Tier 4 - Nonpreferred Drug

Tier 5 - Specialty Tier

Please refer to the *Summary of Benefits or Evidence of Coverage* for the specific copayment or coinsurance amount associated with each tier. Our plan covers most Part D vaccines at no cost to you. You won't pay more than \$35 for a one-month supply of each covered insulin product regardless of the cost-sharing tier.

Abbreviations used in this Formulary

PA – Prior Authorization: Requires that you or your physician receive approval from HMSA Medicare Advantage before we will cover your prescription.

QL – Quantity Limits: A limit on the amount of the drug that HMSA Medicare Advantage will cover.

ST – Step Therapy: Requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition.

NM – Not Available at Mail Order: These drugs are not available through HMSA's mail-order pharmacy, CVS Caremark®.

B/D – B or D: This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination. For more information, consult your Provider Directory or call Customer Relations at the numbers listed on the back of this booklet.
