II. PROVISIONS OF THE MEDICAL PLAN APPLICABLE

All definitions, provisions, limitations, exclusions, and conditions of HMSA's Guide to Benefits shall apply to this Rider, except as specifically modified in this Rider.

III. DEFINITIONS

When used in this Rider:

(1) **"ASH Group"** means American Specialty Health Group, Inc. which has been contracted by HMSA to administer the benefits under this Rider.

(2) **"Acupuncture Services"** are services provided or made available to a Member by a Provider for the treatment or diagnosis of Musculoskeletal and Related Disorders, Nausea and Pain. Acupuncture is the stimulation of a certain point on or near the surface of the body by the insertion and removal of single-use, sterilized, disposable needles and/or electrical stimulation (electro-Acupuncture) to normalize physiological functions, to prevent or modify the perception of Pain, or to treat Musculoskeletal and Related Disorders, Nausea, or conditions that include Pain as a primary symptom. In addition, it may include such services as adjunctive physiotherapy modalities and procedures provided during the same Course of Treatment and in support of Acupuncture Services.

(3) **"Continuity of Care"** means that if you are in the course of treatment with a Participating Provider, should that provider end his or her participation in this plan, you may continue seeing that provider and receive participating benefits for a period of time until your documented treatment plan is concluded or you may be safely transferred to another Participating Provider. At such time, if you choose to continue receiving covered services from the provider, participating coverage is available only when the provider agrees to abide by the ASH Group requirements and fee schedule.

(4) **"Course of Treatment"** means a sequence or series of office visits directly related to a diagnosed disease state, illness, or injury and provided in conjunction with a defined clinical outcome.

(5) **"Established Patient"** means someone who has received professional services from the provider, or another provider of the same specialty who belongs to the same group practice, within the past three years.

(6) **"Therapeutic Massage Services"** are services provided by a Provider for treatment of Myofascial/Musculoskeletal Disorders, Musculoskeletal Functional Disorders, Pain Syndromes, and/or lymphedema through physical actions, primarily by hand, performed on the body. This may include techniques such as compression, stroking, joint movement, friction, vibration, and percussion.

(7) **"Member Payments"** means charges (such as copayments) that are the direct financial responsibility of the Member and are payable directly to the provider for the provision of certain Covered Services as set forth in Section IV. Schedule of Benefits of this Rider. Member Payments may be collected by a provider (Participating or Nonparticipating) at the time services are provided or subsequently billed to the Member.

(8) **"Musculoskeletal and Related Disorders"** means conditions with signs and symptoms related to the nervous,

muscular, and/or skeletal systems. Musculoskeletal and Related Disorders are conditions typically categorized as: structural, degenerative, or inflammatory disorders; or biomechanical dysfunction of the joints of the body and/or related components of the muscle or skeletal systems (muscles, tendons, fascia, nerves, ligaments/capsules, discs, and synovial structures) and related manifestations or conditions. Musculoskeletal and Related Disorders include Myofascial/Musculoskeletal Disorders, Musculoskeletal Functional Disorders, and subluxation.

Musculoskeletal and Related Disorders include Myofascial Disorders.

(9) **"Musculoskeletal Functional Disorders"** means disorders that are abnormal functions and/or activities-of-daily-living limitations of the body resulting from muscle stiffness, muscle restriction, and/or range of motion limitations.

(10) **"Myofascial Disorders"** means conditions with associated signs and symptoms related to the muscular and surrounding connective tissues. Myofascial Disorders are conditions typically categorized as structural, spasms, or inflammatory disorders or dysfunction of the muscles of the body.

(11) **"Myofascial/Musculoskeletal Disorders"** means conditions with signs and symptoms that relate to the muscular and related systems. Myofascial/Musculoskeletal Disorders are conditions that are typically categorized as structural, spasms, or inflammatory disorders or dysfunction of the muscles of the body, and/or related components of the motor unit (muscles, tendons, fascia, ligaments/capsules, discs, and synovial structures), and related manifestations or conditions.

(12) **"Nausea"** means an unpleasant sensation in the abdominal region associated with the desire to vomit that may be appropriately treated by a Provider of Acupuncture Services in accordance with professionally recognized, valid, evidence-based standards of practice and includes adult post-operative nausea and vomiting, chemotherapy nausea and vomiting, and nausea of pregnancy.

(13) **"New Patient"** means that a patient has not received any professional services from the provider, or another provider of the same specialty who belongs to the same group practice, within the past three years.

(14) **"Nonparticipating Provider"** means a provider who has not entered into an agreement with ASH Group to provide Covered Services to Members.

(15) **"Pain"** means the sensation of hurting or strong discomfort in some part of the body caused by an injury, illness, disease, functional disorder, or condition that may be appropriately treated in accordance with professionally recognized, valid, evidence-based standards of practice.

(16) **"Pain Syndrome"** means acute or chronic Musculoskeletal and Related Disorders including Myofascial/Musculoskeletal Disorder, or Musculoskeletal Functional Disorder, in which the primary symptom consists of sensations of hurting or strong discomfort in some part of the body caused by an injury, illness, disease, or functional disorder.

IV. SCHEDULE OF BENEFITS

(1) Copayments

(a) Participating Providers

1. \$20 per visit.

(b) Nonparticipating Providers

1. 50% of billed charges, up to a maximum of \$30

per visit.

Here are two examples showing how the nonparticipating provider works.

- If the billed charge for covered services received during an office visit is \$50, then we would pay \$25 (50% of \$50). The amount you would owe is \$25 (\$50 less \$25).

- If the billed charge for covered services provided during an office visit is \$80, then we would pay a maximum of \$30 (50% of \$80 not to exceed \$30) and you would owe \$50 (\$80 less \$30).

(2) Benefit Maximum

(a) Participating Providers

1. No more than 12* visits per calendar year.

(b) Nonparticipating Providers

1. No more than 12* visits per calendar year.

Note: Eligibility for benefits for more than five visits per calendar year from a participating or nonparticipating provider requires approval. See Section VIII of this Rider for details.

Calculation of Annual Benefit Maximum: *The total number of visits aggregates from all covered service categories (acupuncture and/or therapeutic massage).

The Benefit Maximum for participating and nonparticipating providers is combined meaning that:

- Each visit in a calendar year to a participating provider reduces the number of visits available under the nonparticipating benefits for the rest of that calendar year; or

- Each visit in a calendar year to a nonparticipating provider reduces the number of visits available under the participating benefits for the rest of that calendar year.

(3) **Acupuncture Services.** Acupuncture is provided at each office visit. Exam Services (Evaluation and Management) and/or Adjunctive Therapeutic Procedures and/or Modalities such as acupressure, and moxibustion are covered when provided in conjunction with the Acupuncture treatment during the office visit. Each office visit/Acupuncture treatment with a Provider of Acupuncture Services will count as one visit toward the Benefit Maximum.

(4) **Therapeutic Massage Services.** Therapeutic massage is provided at each office visit. No other services are covered. Each office visit/therapeutic massage treatment with a Provider of Therapeutic Massage Services will count as one visit toward the Benefit Maximum.

V. COVERED SERVICES

(1) ACUPUNCTURE COVERED SERVICES

(a) **A New Patient exam or an Established Patient exam for the initial evaluation** of a patient with a new condition or new episode to determine the appropriateness of Acupuncture Services.

(b) **Established patient exams as needed to assess the need to initiate, continue, extend, or change a Course of Treatment.** A reevaluation may be performed during a subsequent office visit or separately. If performed separately, additional coinsurance applies.

(c) **Follow-up office visits** include the provision of Acupuncture Services and/or reevaluation.

(d) **Adjunctive Therapies or Modalities** such as acupressure, moxibustion, or breathing techniques are covered only when provided during the same Course of Treatment and in support of Acupuncture Services. However, the following exception applies for the application of acupressure if: 1) a Participating Provider of Acupuncture Services recommends Acupuncture Services for a Member as a Covered Service but cannot do so in accordance with professionally recognized, valid, evidence-based standards of practice because the insertion of needles is contraindicated (e.g., for a patient with a bleeding disorder); and 2) professionally recognized, valid, evidence-based standards of practice indicate that acupressure would be effective in the treatment of the Member, then Acupuncture Services will include acupressure in that circumstance even if Acupuncture Services are not provided to the Member at the same time and the Member is entitled to receive other Adjunctive Therapies or Modalities in conjunction with the provision of acupressure in that circumstance to the same extent as would be the case if the Member were receiving Acupuncture Services.

(2) THERAPEUTIC MASSAGE COVERED SERVICES

(a) **A New Patient exam or an Established Patient exam as needed for the initial evaluation** of a patient with a new condition or new episode to determine the appropriateness of Therapeutic Massage Services.

(c) **Therapeutic Massage Sessions** that include the application of therapeutic massage techniques to the musculoskeletal soft tissue in various combinations.
