III. DEFINITIONS

When used in this Rider:

(1) **"ASH Group"** means American Specialty Health Group, Inc. which has been contracted by HMSA to administer the benefits under this Rider.

In addition, it may include such services as adjunctive physiotherapy modalities and procedures provided during the same Course of Treatment and in support of Acupuncture Services.

(3) **"Continuity of Care"** means that if you are in the course of treatment with a Participating Provider, should that provider end his or her participation in this plan, you may continue seeing that provider and receive participating benefits for a period of time until your documented treatment plan is concluded or you may be safely transferred to another Participating Provider. At such time, if you choose to continue receiving covered services from the provider, participating coverage is available only when the provider agrees to abide by the ASH Group requirements and fee schedule.

(4) **"Course of Treatment"** means a sequence or series of office visits directly related to a diagnosed disease state, illness, or injury and provided in conjunction with a defined clinical outcome.

This may include techniques such as compression, stroking, joint movement, friction, vibration, and percussion.

(7) **"Member Payments"** means charges (such as copayments) that are the direct financial responsibility of the Member and are payable directly to the provider for the provision of certain Covered Services as set forth in Section IV. Schedule of Benefits of this Rider. Member Payments may be collected by a provider (Participating or Nonparticipating) at the time services are provided or subsequently billed to the Member.

Disorders are conditions typically categorized as: structural, degenerative, or inflammatory disorders; or biomechanical dysfunction of the joints of the body and/or related components of the muscle or skeletal systems (muscles, tendons, fascia, nerves, ligaments/capsules, discs, and synovial structures) and related manifestations or conditions.
