An accident can be disruptive to daily life, both physically and financially. Whether you, your spouse, or your children suffer an injury from a sports activity or do something as simple as fall off a bike, accident coverage ensures you and your family are prepared for the unexpected. With US Able Life's Accident Elite Plan, you can enjoy peace of mind knowing you're financially prepared. - \$200 for ambulance transportation
- \$210 for emergency room treatment
- \$3,750 for a fractured elbow

Additional coverage options

Critical Care Elite

The overwhelming majority of healthy individuals over age 40 will become critically ill at some point in their future. The costs of treating a critical illness or end-of-life care can be devastating to you and your family's income and life savings if sufficient insurance is not in place.

Critical illness coverage helps with the nonmedical costs that often accompany a critical illness diagnosis and treatment, including travel, child care, and other unexpected expenses. This plan pays a lump-sum benefit upon the first diagnosis of a critical illness, including cancer, heart attack, and stroke.

Hospital Confinement

Over the course of a prolonged hospital stay, savings may be put at risk simply to cover a variety of deductibles and copayments. For many, turning to other family members and friends for help may seem like the only option to pay for expenses not covered by traditional insurance.

Hospital benefits can provide a reassuring layer of financial protection to you and your family by paying cash to cover unexpected expenses in the event of hospitalization. This insurance gives you the flexibility to pay your day-to-day expenses when admitted to the hospital, such as utility bills, mortgage payments, or even daycare costs.
